A Young Man's View

By FRANK [REDACTED]

Eeny, meeny, miney, mo,
Catch a patriot by the toe,
If he hollers make him pay,
By taking all his rights away.

This seems to be the order of the day. Protect the left, destroy the right. In the case of two generals, Gen. Telford Taylor, better known by his friends at the United Nations Gen. Taylor who blasted Joe McCarthy. Gen. Taylor who has listed among his friends, Adlai Stevenson, Harry Dexter White, Paul Hoffman and other one worlders, Gen. Taylor who was born in Russia in 1910. The same general who earned a reputation at the Nuremberg trials. This general has been picked as a possible replacement to Allen Dulles in the CIA.

Now let's look at Gen. Edwin Walker. The general who advocated lessons in patriotism for his troops. The man who started a "pro-blue" program which taught the menace of Communism. A program which instilled love of country in almost every G.I. in his command. This general was relieved of his command.

And the movie industry which did not find the film "Eleventh Commandment" good enough for its screens, but found the movie "Never on Sunday" good enough for an Academy Award.

And the press which cannot find space to tell us of the movements of the Communist Party in the United States, but finds room to tell of another type of evil that has been dead for 16 years.

And of the State Department that allows a country to go red right under our noses, but is ready to declare war on four French generals trying to free their country of social chaos.

And of some clergymen who advocate peace on earth good will toward men, and attack the very people working toward this goal.

And the television industry which cannot find time to tell us of the red menace to our society, but spends millions trying to tie in right-wing individuals with the leaders of Nazi Germany.

This writer feels that the "let's all hate Germany" campaign now being waged by almost every public news medium has a methodic plan in mind. We have Nazi movies, Nazi records, Nazi stories and recently the bad guy on a T.V. western was a German immigrant. Could it be the little darlings are building us up for a smash bang finale where they will claim that all right-wing patriots are working in the very image of Nazi Germany? Of

course, it has already started. And it will continue until every American citizen is brainwashed into believing that his real enemy is that "fascist nut" living next door to him. Could it be these people will stop at nothing in order to get what they want? Will they pit religion against religion, race against race, so they can go on behind the scenes with their dirty little job?

And then there's the Bobsy twins, Jackie and Bobbie. Who giggle and murmur when asked about the anti-Communists here. Then a week later make a speech proclaiming the ADA (Americans for Democratic Action) as the true minutemen of our time. What I'm wondering is, minutemen for whom?

Winston Churchill once said: "If we open a quarrel between the past and the present, we shall find that we have lost the future." I am sure the enemy would love us to start fighting among ourselves in order to ease their burden.

To Mr. J. of Anaheim: I am not being paid for this column nor did the editors of this paper solicit the articles. Did it ever occur that some people are willing to fight for their country, without thoughts of lining their pockets with the gold coins of Judas.
